

“In the 35 years of being part of this industry, I can honestly say Theresa is **one of the best**, if not the best, Project Managers I’ve worked with. Her **attention to detail, forward-thinking approach** and **pride in the work done** are unmatched. Her concern for the well being of her onsite staff and everyone that comes on the site is of **the highest level**. It’s clear, right away, that her experience is extensive, but that doesn’t stop her from **listening to others** for a better, more efficient, cost-effective way to do things all the while striving to deliver the **highest quality project** to her company and the community.”

– Brian McClusky, AO Architects

ECI THANKS YOU - **THERESA DEMARCO**
